The two EDI Document templates (SuperV 810 and Acme850) packaged in the free download EDI Editor program were created for demo purpose. It does not match any real EDI exchange messages.

We can create a customized EDI template for your trading partner if you provide us with the specification. Normally, you can obtain the specification from your trading partner.

The price for a custom template ranges from \$240.00 to \$480.00 depending on the complexity of the specification. It takes 5 working days to create a custom template.

If you have questions or need a price quote, contact us via Email at sales@hsu-computing.com.
